How This Book Is Arranged

This book collects every previous-year question recorded for HS248AT — **59 questions** in total, **30 objective or short-answer** and **29 descriptive** — drawn from five papers set between August 2024 and June 2026.

The questions are printed **paper by paper, in chronological order**, not merged under topic headings. A question paper is a document with a shape: how many marks Part A carries, how many descriptive questions must be attempted, which choices are offered. That shape is itself worth revising, and it is lost the moment the questions are shuffled. Each chapter therefore opens with the paper's own header — date, assessment type, duration, maximum marks and, where the paper printed them, the instructions to candidates and the marks-distribution table — followed by the questions in their original order and numbering.

Appendix A puts back what the chronological arrangement leaves out. It groups all 59 questions by theme, so everything ever asked on the four orders, or on trust and respect, can be read together. Appendix B lists the questions that have been set more than once; those repeats are the single best use of revision time.

The papers in this book

#	Assessment	Date	Max M	Time	Questions
1	Improvement CIE — Quiz and Test	28 August 2024	25	60 min	10
2	CIE-II — Quiz and Test	7 May 2025	25 + 5	60 min	10
3	Improvement CIE — Quiz and Test	June 2025	30	60 min	9
4	Semester End Examination — Regular / Supplementary	June/July 2025	50	2 hours	20
5	Improvement CIE — Quiz and Test	18 June 2026	05 + 25	10 + 60 min	10

Reading the three code columns

Every question in this book carries the three codes its paper printed beside it, in the same three columns:

- **M** — the marks the question carries.
- **CO** — the Course Outcome the question is mapped to. The papers print the code only, CO1 to CO4; the full statement of each outcome is given in the course handout and is not reproduced here.
- **BT** — the Bloom's Taxonomy level, on the standard six-level scale: **L1** remember, **L2** understand, **L3** apply, **L4** analyse, **L5** evaluate, **L6** create. No paper in this collection sets anything above L4.

The BT code is the most useful of the three when revising. An L1 question wants a definition reproduced; an L2 question wants it explained in your own words; an L3 question wants it used on a case; an L4 question wants it taken apart and compared. The same topic — conformance in the four orders, say — has been set at L4 on one paper and at L2 on another, and the two answers are not the same length or the same shape.

A note on faithfulness. Questions are transcribed as printed, including the spelling each paper used where it varies between them (*swabhava* in August 2024, *svabhava* in June/July 2025) and including the occasional grammatical slip in the original. Nothing has been silently corrected, abridged or reworded, and no question has been dropped. The same applies to the papers' own arithmetic: the August 2024 paper sets 30 marks under a header that says 25, and that is reproduced as printed, with the discrepancy noted where it occurs rather than tidied away.

Four cells were left as the template's own xx placeholder and are reproduced that way. They are all cells that would have been zero: no question on this paper is mapped to CO1, and none is set above L2.

The paper does not add up to its own maximum. The header states a maximum of **25 marks**, but Part A carries 5 and the five Part B questions carry 5 each — **30 in total**. The footer table above agrees with the questions, not with the header: its CO row totals 30 (12 + 7 + 11) and its BT row totals 30 (14 + 16), and both reconcile exactly with the per-question codes in the two grids. The discrepancy is in the original and has been left as printed.

This is the only regular CIE in the collection — the other four papers are improvement or semester-end sittings. Its subject matter is correspondingly narrower: every question on it comes from harmony in the family and the values in relationship, which is the block of the syllabus a second CIE covers.

Both rows total 30, which is the paper’s maximum. Note that L4 alone carries 13 of the 30 marks: this is an analytical paper, and the six- and seven-mark questions on conformance and on units and space are where those marks sit.

PAPER 4

Semester End Examination — June/July 2025

COURSE CODE	HS248AT	MAXIMUM MARKS	50
SEMESTER	IV	DURATION	2 hours
EXAMINATION	IV Semester B.E. Regular / Supplementary	ASSESSMENT	Semester End Examination
DATE	June/July 2025	APPLIES TO	Common to all programs

Instructions to the students, as printed.

1. Answer all questions from Part A. Part A questions should be answered in first three pages of the answer book only.
2. Answer THREE full questions from Part B. In Part B question number 2 is compulsory. Answer any one full question from 3 and 4 & 5 and 6.

The blueprint is worth reading off the instructions before the questions. Part A is ten compulsory one-mark objective questions. Part B sets **Q2 compulsory** (14 marks), then **one of Q3 or Q4** (13 marks) and **one of Q5 or Q6** (13 marks) — three full questions, 40 marks, and two genuine choices to make in the hall.

Improvement CIE — 18 June 2026

COURSE CODE	HS248AT	MAXIMUM MARKS	05 + 25
SEMESTER	IV	DURATION	10 min + 60 min
DATE	18 June 2026	ASSESSMENT	Improvement CIE — Quiz + Test
STRUCTURE	Part A 5 M + Part B 25 M	FORMAT	Short answer, not multiple choice

This paper breaks the pattern of the earlier improvement CIEs in one respect worth noting: **Part A is not multiple choice**. It sets five one-mark short-answer questions to be written in ten minutes — definitions, lists and one-line differentiations. There is nothing to guess at.

Part A — Short Answer Questions

5 Marks

Q. No	Question	M	CO	BT
1	Give any two definitions for the term co-existence.	1	CO1	L1
2	State the four orders of nature.	1	CO2	L1
3	Identify the svabhava / value of the self ('I') in human beings.	1	CO2	L2
4	Summarize 2 things that human beings have to do to realize the mutual fulfilment in nature.	1	CO3	L2
5	Differentiate between Units and Space.	1	CO4	L2

Part B — Descriptive Questions

25 Marks

Q. No	Question	M	CO	BT
1	Describe how harmony is achieved among the four orders of nature.	5	CO4	L2
2	Justify that requirement of any order is already available in abundance in nature.	5	CO3	L4

Q. No	Question	M	CO	BT
3	Demonstrate how interconnectedness, self-regulation and mutual fulfilment are among the four orders of nature with an example.	5	CO2	L3
4	Summarize how the domain of consciousness helps in accomplishing development or permanent change.	5	CO4	L2
5	Outline 2 types of units with examples.	5	CO3	L2

Test — Max Marks	1	7	11	11	2	18	5	5	—	—

Both rows total 30. L2 carries 18 of the 30 marks, which is the mirror image of the June 2025 paper: this one rewards clear explanation rather than analysis.

APPENDIX A

Question Index by Theme

The chronological arrangement of this book keeps each paper whole. This appendix inverts it: all 59 questions are listed again under the topic they examine, so that everything ever asked on one theme can be revised together. Each entry gives the paper, the question number and the marks.

Five themes account for the whole collection, and their weights are uneven. The unevenness is the point — *the four orders* and *harmony in nature and existence* together carry more than half of every mark ever set on this course.

APPENDIX B

Questions Set More Than Once

Six topics in this collection have been examined on more than one paper. Three were reprinted word for word; the other three were narrowed or widened, but around the same idea. All are listed below with every occurrence and every mark value, because a question that has already been asked twice is the most economical thing to prepare.

Note what happens to the marks. *Conformance in the four orders* was worth 6 marks on a CIE and 7 on the SEE, and its Bloom's level was L4 both times — so the semester-end paper wanted the same analysis, one point longer. That is the general pattern here: a repeat keeps its level and gains a mark or two when it moves to the SEE.

Question	Set in
Foundation of a strong human relationship — identical wording and identical options both times	CIE-II, 7 May 2025, Part A Q1 (1 M, CO1, L1) SEE, Jun/Jul 2025, Q1.6 (01 M, CO1, L2)
'Conformance', and conformance in the four orders — identical wording both times	Improvement CIE, Jun 2025, Test Q2 (6 M, CO2, L4) SEE, Jun/Jul 2025, Q6a (07 M, CO3, L4)
Participation of the human being in the role of physical facility — reworded: ' <i>in nurture, protection and providing means for the body</i> ' became ' <i>to help and preserve its utility</i> '; the four options are unchanged	Improvement CIE, Jun 2025, Quiz Q1 (1 M, CO1, L2) SEE, Jun/Jul 2025, Q1.8 (01 M, CO3, L2)
The four orders of nature — asked three times, at three different lengths: as a five-mark explanation, as a six-mark question with a schematic diagram, and as a one-mark list	Improvement CIE, 28 Aug 2024, Part B Q3 (5 M, CO4, L2) Improvement CIE, Jun 2025, Test Q1 (6 M, CO1, L2) Improvement CIE, 18 Jun 2026, Part A Q2 (1 M, CO2, L1)

What the repeats tell you. Six topics carry every repeat in this collection: the four orders, svabhava, conformance, units and space, the utility value of physical facility, and trust as the foundation of relationship. Between them they account for 15 of the 59 questions in this book. If revision time is short, that is where it goes first.
