Topic ID1

Question 1: Definition of Entrepreneurship

Bloom's Level: 3 co1

Q1:
Explain the meaning and definition of entrepreneurship. Distinguish between an entrepreneur, a manager, and an innovator. Illustrate your answer with an example of a successful entrepreneur in India.

Scheme of Evaluation (10 Marks)

Component	Description	Marks
Definition of entrepreneurship (any two standard definitions – Drucker, Schumpeter, etc.)	Conceptual clarity	3
Explanation of characteristics (risk-taking, innovation, leadership, opportunity recognition)	Understanding	3
Comparison between entrepreneur, manager, and innovator	Analytical clarity	2
Example of a successful Indian entrepreneur (e.g., Ratan Tata, Narayana Murthy, or Falguni Nayar) with justification	Application	2
Total		10

Question 2: Scope of Entrepreneurship

Bloom's Level: 3 co1

Q2:
Describe the scope of entrepreneurship across different sectors. How can entrepreneurial opportunities differ between urban and rural settings? Provide suitable examples.

Scheme of Evaluation (10 Marks)

Component	Description	Marks
Explanation of scope (commercial, social, agricultural, technological, corporate, etc.)	Conceptual understanding	3
Role of entrepreneurship in various sectors (manufacturing, service, agriculture, etc.)	Understanding	3
Distinction between rural and urban entrepreneurship opportunities	Analytical understanding	2
Examples of sector-wise entrepreneurs/startups (e.g., Amul – rural, Zomato – urban)	Application	2

Component	Description	Marks
Total		10

Question 3: Importance of Entrepreneurship in Innovation and Economic Development

Bloom's Level: 3 co1

Q3:
Discuss the role of entrepreneurship in promoting innovation and contributing to economic development. Support your answer with real-world examples.

Scheme of Evaluation (10 Marks)

Component	Description	Marks
Explanation of innovation and its link to entrepreneurship	Conceptual understanding	3
Contribution of entrepreneurship to employment, GDP, and technology advancement		3
Mechanisms through which innovation drives economic development	Analytical	2
Examples of innovative entrepreneurs or startups (e.g., Ola, Tesla, BYJU'S, Paytm)	Application	2
Total		10

Scope of Entrepreneurship

Q4 Case Study

Scenario:

GreenFleet Logistics, founded by an engineer, offers last-mile delivery using electric vehicles in Tier-2 cities. The founder aims to expand to agri-delivery and cold storage sectors.(10)

BT4 co1

Problem:

What does this case show about the *scope of entrepreneurship* in modern economies?

Solution:

- Sectoral Scope: Transport, agriculture, and logistics integration.
- Technological Scope: EVs, IoT tracking, and data analytics.
- Geographical Scope: Expansion beyond metros to rural areas.

Social Scope: Reduces carbon footprint and supports sustainability (4*2.5=10M)

Q5 Importance of Entrepreneurship

Case Study 1: Reviving Local Handicrafts

Scenario:
In Rajasthan, a young graduate named Sneha started an e-commerce platform selling handmade pottery. Local artisans joined her cooperative, earning 3× more than before.

Problem:
How does Sneha's initiative demonstrate the importance of entrepreneurship in regional development? (6)

Solution:

- Job creation: Engaged 70 rural artisans.
- Cultural preservation: Revived dying craft forms.
- Economic impact: Increased local income.
- Digital inclusion: Linked artisans to global markets.

CO1 BT4

Q6 Explain the contributions of any three successful entrepreneurs towards the economic growth and development of their country. How did their innovations or enterprises create employment opportunities and promote industrial or technological advancement?"

Scheme of Evaluation:

Criteria	Expected Response	Marks
1. Identification of Three Entrepreneurs	Correctly names three notable entrepreneurs (e.g., Ratan Tata, Narayana Murthy, Elon Musk, Steve Jobs, Mukesh Ambani, etc.)	1
2. Description of Each Entrepreneur's Contribution	Brief explanation of each entrepreneur's major achievement, innovation, or enterprise	2
3. Impact on Economic Growth and Development	Explanation of how their ventures contributed to GDP growth, industrialization, or export expansion	1.5

4. Employment Generation and Industrial/Technological Advancement	Discusses how their enterprises created jobs, encouraged startups, or led to new technologies	1.5

Topic ID2

Question: Techniques for Identifying Entrepreneurial Opportunities

Q1:
Apply suitable techniques to identify potential entrepreneurial opportunities in the field of renewable energy or sustainable products. Analyze how these techniques help in evaluating the feasibility of a new business idea.(10)

co1 BT’3

Scheme of Evaluation (10 Marks)

Component	Description	Marks
Identification of key techniques for opportunity recognition (e.g., environmental scanning, market research, creativity, problem-solving, trend analysis)	4	
Application of techniques to a specific sector (renewable energy/sustainable products)	2	
Analysis of how these techniques help in assessing feasibility (market demand, competition, resources, innovation potential)	3	
Logical organization and clarity in explanation	1	
Total		10

Question 2: Types of Entrepreneurs – Innovative, Imitative, Fabian

CO1 Bloom’s Level: 4

Q2:
Differentiate between innovative, imitative, and Fabian entrepreneurs with suitable examples. Analyze how each type contributes differently to industrial and economic growth.(10)

Scheme of Evaluation (8 Marks)

Component	Description	Marks
Correct definition of each type of entrepreneur	3	
Comparison and differentiation between the three types	2	
Application of real-world examples	3	
Logical conclusion on their contribution to economic growth	2	
Total		10

Q3 Case Study 3 Techniques for Finding Entrepreneurial Opportunities(6)

CO1 BT4

Scenario:

Maya, a design student, noticed increasing e-waste on her campus. She researched and found that over 60% of college e-waste could be repurposed. She started a small business creating eco-jewelry and décor from old circuit boards.

Problem:

Which opportunity identification techniques did Maya use?

scheme Solution:

- Observation & Problem Identification: Noticed e-waste problem.
- Trend Analysis: Recognized sustainability trend among youth.
- Market Gap Analysis: Few players in upcycled art.
- Networking: Partnered with local recyclers.

Q4 Case Scenario:
Three college friends — Ananya, Vikram, and Karan — started an e-commerce venture called ShopEase, an online platform designed to help small local shop owners sell their products digitally.

Their vision was to bridge the gap between traditional retail stores and online consumers, especially in semi-urban areas where big e-commerce players had limited reach.

Initially, they faced challenges such as:

- Low digital literacy among local vendors.
- Limited funding for platform development.
- Competition from larger online marketplaces.

The team innovated by:

- Developing a mobile-friendly app in regional languages.
- Offering free onboarding and digital training to shopkeepers.
- Using AI-based recommendation systems to match buyers and sellers locally.

Within a year, ShopEase partnered with over 2,000 small businesses and expanded to five cities, earning recognition for digital inclusivity and social innovation.

Problem:

What key challenges did the ShopEase team face, and how did their innovative and collaborative approach as e-entrepreneurs help them achieve success?

Solution / Key Points (6 Marks):

Aspect	Expected Answer Points	Marks
1. Challenges Faced	Digital illiteracy, financial constraints, market competition.	2
2. Innovative Solutions	Mobile app in regional languages, digital training, AI-based local matching, partnership with vendors.	2
3. Outcome / Impact	Empowered local businesses, increased digital participation, improved market reach, recognition for innovation.	1
4. Concept Link	Demonstrates innovation and teamwork in e-entrepreneurship leading to social and business transformation.	1

TOPIC ID3

Q1

Differentiate with one example the character and Trait of a person.Describe Key Mindset Traits ,Skill and Profesional Traits of a successful Entrepreneur

co1 BT 2

	Criteria	Description	Marks
1.		Meaning of Character and Trait	1 mark
2.	Key Mindset Traits	Explanation of at least four key mindset traits (e.g., risk-taking, resilience, innovation, passion) with examples	3 marks
3.	Entrepreneurial Skills	Description of at least four essential skills (e.g., leadership, decision-making, networking, communication, problem-solving)	3 marks
4.	Professional Traits	Explanation of professional/ethical traits (e.g., integrity, accountability, adaptability, time management)	2 marks

4q

Q2 Discuss the emerging trends shaping new-age entrepreneurship. How are technology integration, sustainability, and global connectivity transforming entrepreneurial practices in the 21st century? Illustrate with suitable examples.” (10)

co1 bt4

Criteria	Expected Key Points	Marks
1. Introduction (Definition & Context)	Brief definition of entrepreneurship and introduction to new-age context.	2
2. Identification of Emerging Trends	Mention trends such as digital transformation, AI, e-commerce, remote work, sustainability, agile models, etc.	2
3. Analysis of Key Trends	In-depth explanation of how technology, sustainability, and global access reshape entrepreneurship.	3
4. Examples / Case Studies	Real or relevant examples (e.g., Tesla for sustainability, Amazon for e-commerce, Zoom for remote collaboration).	2
5. Conclusion	Summarize how adaptability and innovation define success in new-age entrepreneurship.	1
Total		10 Marks

Q3 Case Study 1: Digital Healthcare

Scenario:
Startup *MediAI* developed an app using AI chatbots for preliminary health advice, reducing doctor wait times during the pandemic.

Problem:
How does MediAI reflect emerging trends in entrepreneurship?

Solution:

- AI-driven innovation: Automation in healthcare.
- Online service model: Telemedicine & remote diagnosis.
- Customer personalization: AI-based patient profiling.
- Outcome: Improved rural health access.

Q3 Write the characteristics and skills which you liked about your Favourite Entrepreneur which made him successful (10)

CO1 BT 2

Scheme of Evaluation (10 Marks Total)

Criteria	Description	Marks
1. Identification of Key Characteristics	Mention of 3–5 specific traits/qualities that contributed to success.	3 Marks
2. Explanation and Justification	Logical explanation of how these traits led to success, with examples or reasoning.	3 Marks
3. Personal Reflection / Admiration	What the student personally liked or learned from the entrepreneur.	2 Mark
4. Presentation and Organization	Clarity, structure, grammar, and coherence.	2 Mark
Total		**10 Marks**

Q4 Give examples of two entrepreneurs who brought change and shaped the world according to their vision. (10)

CO1 BT2

Scheme of Evaluation (10 Marks):

Criteria	Expected Key Points	Marks
1. Introduction	Brief definition of entrepreneurship and the role of visionary entrepreneurs in shaping the world.	1
2. Entrepreneur 1 – Identification & Background	Name, background, and brief history (e.g., *Elon Musk – founder of Tesla, SpaceX; focused on sustainable energy and space exploration*).	1
3. Entrepreneur 1 – Vision & Innovations	Explanation of their vision and innovations (e.g., electric mobility, reusable rockets, AI integration).	2
4. Entrepreneur 1 – Global/Societal Impact	Analysis of how their ideas changed industries or influenced society (e.g., clean energy revolution, privatization of space).	1
5. Entrepreneur 2 – Identification & Background	Name, background, and brief history (e.g., *Steve Jobs – co-founder of Apple; revolutionized digital communication and design*).	1
6. Entrepreneur 2 – Vision & Innovations	Explanation of vision and major innovations (e.g., iPhone, personal computing, focus on user experience).	2
7. Entrepreneur 2 – Global/Societal Impact	Discussion of their lasting impact on technology, lifestyle, and global markets.	1
8. Conclusion	Summary linking how visionary leadership and innovation drive transformative global change.	1
Total		10 Marks

Q5.List 6 common entrepreneurial Myths

Scheme for 6 listed items 6 marks

Q6. Entrepreneurs are born that way. 2.Businesses need someone with an MBA at the helm. Discuss about these Entrprenural myths (6m)

Scheme of Evaluation (6 Marks Total)

Criteria	Description	Marks
1. Explanation of Myth 1	Correct explanation and logical refutation with examples.	2 Marks
2. Explanation of Myth 2	Correct explanation and logical refutation with examples.	2 Marks
3. Clarity and Critical Thinking	Shows understanding of how myths differ from reality; good reasoning.	1 Mark
4. Organization and Presentation	Well-structured, clear, and grammatically correct answer.	1 Mark
Total		**6 Marks**

Q7Case Scenario:
A startup named EcoSmart Solutions, founded by three young engineers, aims to create affordable solar-powered home appliances for rural areas. Initially, the founders struggled to convert their technical idea into a viable business. Each founder had different strengths:

- Amit – a strong technical innovator.

- Riya – skilled in marketing and customer relations.
- Sanjay – had experience in finance and operations.

In the first year, the team faced major challenges — lack of market understanding, financial mismanagement, and production delays. Tensions rose as Amit wanted to invest heavily in R&D, while Riya pushed for early market testing. Investors began losing confidence due to slow progress.

Realizing the need for better coordination, the team conducted regular strategy meetings, clearly defined roles, and sought mentorship from an experienced entrepreneur. They implemented agile project management, improved communication, and delegated tasks effectively. Within a year, EcoSmart successfully launched its first solar cooker, secured funding, and expanded into three states.

Problem:

What key team-related challenges did EcoSmart Solutions face, and how did effective teamwork help them overcome these issues to achieve business growth?

Solution / Key Points (6 Marks):

Aspect	Expected Answer Points	Marks
1. Identification of Challenges	Lack of coordination, conflicting priorities, unclear roles, weak financial control, poor communication.	2
2. Team-based Strategies Used	Role clarification, regular meetings, mentorship, use of agile methods, and effective communication channels.	2
3. Outcome / Impact	Improved efficiency, investor confidence restored, successful product launch, business expansion.	1
4. Concept Link	Demonstrates the role of an entrepreneurial team in innovation, adaptability, and growth.	1
